PAOLO PIZZORNI VINI

Category: Cantine
business description: Winery & Farmhouse
The Paolo Pizzorni Vini winery, founded on the threshold of the new millennium, is the natural continuation of the work of their grandparents, begun in 1929. Cultivating grapes has always been a constant commitment for the Pizzorni family, a philosophy of life, a way of being. The winery, like many of their highly suitable vineyards, is nestled in the magnificent Monferrato hilly landscape in the small town of Ricaldone, a few kilometers from Acqui Terme.
